A HERITAGE OF HEALING, A LEGACY OF LUXURY

This luxurious retreat comprises the elegant Alhambra and Augusta villas, as well as a modern extension, harmoniously integrated into the lush, fragrant forest along the Adriatic coast.

Complementing this prestigious hotel are a collection of ultra-luxury historic villas, including Captain's Villa Rouge, Villa Hortensia, Villa Mirasol, Villa Hygeia, and the newest gem, Villa Sea Princess Nika.

Together, they provide an experience of relaxation, fine dining, and impeccable service for the most discerning guests.

Boutique Hotel Alhambra places special focus on superior food and excellent wines not only from Croatia but around the world. All menus are prepared and served à la carte with three or four course lunches and dinners. Guests can select wines from the cellar with 600 of the best wines from across the globe. Alfred Keller Restaurant takes a thoughtful approach to a great restaurant experience where Croatia's finest produce, fish and meat take the center stage. The ever-changing menu embraces the sustainable sourcing and local food movement and dispenses flavors in their true essence using only the freshest natural ingredients from Lošinj and its immediate surroundings.

## CUBE SPA ALHAMBRA

The story of Cube Spa Alhambra begins over a century ago in Čikat Bay, where majestic pine forests, mineral-rich seawater, and wind created a remarkable healing environment. The spa showcases Lošinj's revered wellness rituals, evolved and refined over time. Its wellness program incorporates the essence of the pine forests, therapeutic plants, and fresh sea air, complemented by luxurious products and contemporary treatments. Spanning 660 m<sup>2</sup>, the spa features treatment rooms, steam and sauna facilities, and a gym.

The Kurhaus Inhalation Bar is our contemporary interpretation of Old World cures. The tradition dates to 1892 when the Kurkomission welcomed aristocrats and travelers on a healing visit to the island. The most popular part of their visit was a stop at the KURHAUS to breathe in the Kur, featuring fine mists of seawater and medicinal aerosols. Our Inhalation Bar has been reimagined for today's travelers, offering this bygone ritual to guests to inhale Lošinj's medicinal plant aerosol mists.

## HISTORIC VILLAS

Not long after health tourism launched on Lošinj in 1885, the island was declared a health resort and quickly blossomed as the chosen destination of the Austro-Hungarian aristocracy. Numerous lavish villas sprouted along Lošinj's coast, mostly decorating Čikat Bay. This regal realm continues to attract today's affluent travelers, providing a tranquil base to explore the enchanting island and reap the benefits of its curative sea air. Amid Aleppo pine forests and botanical gardens, each of the five villas offers an unmatched seaside experience, marrying contemporary luxury with Old World charm. Guests are invited to uncover the island's traditions while enjoying modern luxuries, with a strong emphasis on wellness and the integration of nature's restorative power into each architectural masterpiece.

Villa guests benefit from exclusive and unlimited access to Alhambra's amenities, and 24-hour private chef and International Butler Academy butler services are available upon request. A sanctuary of serenity and sophistication, the villas are ideal for groups of friends or families seeking a sense of peace, calm, and tranquility. All villas are gated with 24-hour security video surveillance.
